ABOUT

Hello,

My name is Lora Milcheva and I am a graphic designer and front-end developer. I'm born in Sofia and I'm 39 years old. For the past two years I've been taking care of my little child and my family.

I recently completed my education in Digital Marketing and Search Engine Optimization, which gave me fundamental knowledge about modern marketing in the digital world and, also, helped me build a better approach in my work.

As a designer I am keen on creating. That's why I really enjoy writing code and experimenting with vision and functionality. I appreciate impressive, yet simple and clean design, combining good structure, consistency and usability.
